APPLICATION FOR A TARIFF CONCESSION ORDER (TCO)

The form should be read carefully before being completed

- (a) Before lodging an application for a TCO, the applicant should determine whether a suitable TCO already exists. Information on existing TCOs is contained in the schedule of Concessional Instruments (SCI), a copy of which is available at each Regional Office of Customs. A TCO can be used by any importer.
- (b) An application will be date stamped on the day it is first received in Canberra by an officer of Customs. Receipt of an application will be acknowledged. Any resultant TCO will operate from the date of receipt. Instructions on how to lodge this form are provided at the end of this form.
- (c) Where an application is accepted as being a valid application, the identity of the applicant and of the importer for whom the applicant is acting will be published in the Gazette.
- (d) Section 269F of the *Customs Act 1901* requires that a TCO application to be in writing, be in an "approved form", contain such information as the form requires, and be signed in the manner indicated in the form. **This is the approved form for the purposes of that section.**
- (e) Section 269FA of the *Customs Act 1901* states "It is the responsibility of an applicant for a TCO to establish, to the satisfaction of the Chief Executive Officer (CEO), that, on the basis of:
 - (i) all information that the applicant has, or can reasonably be expected to have; and
 - (ii) all inquiries that the applicant has made, or can reasonably be expected to make;
 there are reasonable grounds for asserting that the application meets the core criteria". The application is taken to meet the core criteria if, on the day of lodgement of the application, no substitutable goods were produced in Australia in the ordinary course of business.
- (f) **Every question on the form must be answered.** Failure to supply the information required by this form will result in rejection of the application (and in the loss of operative date).
- (g) Where the form provides insufficient space to answer a question, an answer may be provided in an attachment. The attachment should clearly identify the question to which it relates.
- (h) All information about inquiries into the production of substitutable goods must relate to the date the application is lodged with Customs.
- (i) Customs may require an applicant to substantiate, with documentary evidence, any information provided in the application form.
- (j) Further information on the Tariff Concession System is available in Part XVA of the *Customs Act 1901*, in the foreword to the Schedule of Concessional Instruments, in the administrative guidelines in Volume 13 of the Australian Customs Service Manual, in Australian Customs Notice No 98/19, on the internet at www.customs.gov.au, by e-mailing information@customs.gov.au or by phoning the Customs Information Centre 1300 363 263.

SUBSTITUTABILITY OF LOCALLY PRODUCED GOODS

- (a) A local manufacturer's goods are substitutable when they are put, or are capable of being put, to a use that corresponds with a use (including a design use) to which the goods the subject of the application can be put (subsection 269B(1) of the *Customs Act 1901*). Even if not identical, locally made goods may be substitutable.
- (b) In determining whether the uses of Australian produced goods correspond with the uses of the goods the subject of the application, the ability of the goods to compete with each other in any market is not relevant.
- (c) The applicant must provide written information as to the inquiries made to establish that there are reasonable grounds for believing that there are no producers of substitutable goods in Australia. The application must include a copy of the research material sourced and a copy of correspondence to, and replies from, potential local manufacturers or relevant industry associations. The application will be rejected if it fails to provide all written information as to the inquiries made.

NOTE: The Australian Customs Service suggests that potential local manufacturers should be given at least 10 working days to respond to inquiries concerning local manufacture.

5 Provide details of the nature of ALI inquiries you have undertaken in order to establish that substitutable goods are not produced in Australia, and the results of those inquiries. Attach copies of all correspondence or directory searches, etc.

I HAVE SEARCHED THE KOMPASS DIRECTORY AND LOCATED COUPLE MANUFACTURERS AND HAVE SENT OUT EMAILS TO BOTH AND AWAITING A REPLY.

6 Provide any additional information in support of discharging your responsibility to establish that there are reasonable grounds for asserting that there are no substitutable goods produced in Australia in the ordinary course of business.

THE IMPORTER TO BEST OF THEIR KNOWLEDGE BELIEVE THAT THERE ARE NO LOCAL MANUFACTURERS.

ALSO THERE IS AN EXISTING TCO 9312653 WHICH HAS BEEN GRANTED, BUT DOES NOT APPLY DUE TO SPECIFICATIONS ON THE TCO.

YES NO If YES, attach a copy of the advice received.

EXPLANATORY STATEMENT

Tariff Concession Instrument No. 0708777

Customs Act 1901

Background

Part XVA of the *Customs Act 1901* (the Act) sets out a scheme under which Tariff Concession Orders (TCOs) may be made by the Chief Executive Officer of Customs (the CEO). A lower rate of customs duty applies to goods that are the subject of a TCO.

Under section 269F of the Act, a person may apply to the CEO for a TCO in respect of goods. If the CEO is satisfied that the application is not in respect of goods specified in section 269SJ of the Act, which sets out those goods that cannot be subject to a TCO, the CEO must decide whether the application meets the core criteria.

Section 269C of the Act provides that a TCO application meets the core criteria if, on the day on which the application was lodged, no substitutable goods were produced in Australia in the ordinary course of business. Section 269B of the Act provides that 'goods produced in Australia' has the meaning given by section 269D, 'ordinary course of business' has the meaning given by section 269E and 'substitutable goods' in respect of goods the subject of a TCO application, means goods produced in Australia that are put, or are capable of being put, to a use that corresponds with a use (including a design use) to which the goods the subject of the application can be put.

Subsection 269P(3) of the Act provides that if the CEO is satisfied that a TCO application meets the core criteria, the CEO must make a written order (a TCO) declaring that the goods the subject of the TCO application are goods to which a prescribed item of Schedule 4 to the *Customs Tariff Act 1995* (the Tariff) specified in the order applies.

Times Technology (Aust) Pty Ltd applied for a TCO in respect of certain trampolines on 08 June 2007.

Instrument

TCO No 0708777 was made on 17 August 2007. It declares that those certain trampolines are goods to which item 50 of Schedule 4 to the Tariff applies since the CEO was satisfied that no substitutable goods were produced in Australia. The general rate of duty on these goods is 5%. The rate of duty for the goods subject to the TCO is free.

Consultation

Subsection 269K(1) of the Act provides in part that as soon as practicable after accepting a TCO application as a valid application, the CEO must publish a notice in the Gazette which includes an invitation to any person who considers that there are reasons why the TCO should not be made to lodge a submission with the CEO. The CEO did not receive any submissions in response to this invitation.

Commencement

Subsection 269S(1) relevantly provides that a TCO is to be taken to have come into force on the day on which the application for the TCO was lodged. TCO No. 0708777 is taken to have come into force on 08 June 2007.

The TCO does not affect the rights of a person (other than the Commonwealth) as at the date of registration so as to disadvantage that person or impose liabilities on a person (other than the Commonwealth) in respect of anything done or omitted to be done before the date of registration. The rights of importers will be beneficially affected. Under paragraph 126(1)(r) of the Regulations, importers of such goods will be able to apply for a refund of duty on goods imported since the day on which the TCO is taken to have come into force. The TCO does not impose any liabilities on any person.
